REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1 ad 10 contains limitation of an input/output pulley mounted on an output shaft of an internal combustion and transmits an output of the starting motor through an endless transmission belt to the auxiliary machinery while the internal combustion engine is at an intentional standstill; wherein said starting motor has a power generating function; and said automotive internal combustion engine control system includes a speed-change mechanism which transmits rotation of the starting motor to the internal combustion engine at a high first gear ratio in starting the internal combustion engine and which transmits rotation of the internal combustion engine to the starting motor at a low second gear ratio to operate the starting motor as a power generator while the internal combustion engine is in operation, said speed-change mechanism being built within the input/output pulley of the internal combustion engine. This combination was not shown or suggested in prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnold Castro whose telephone number is (571) 272-4839. The examiner can normally be reached on Mon, Tues, Wed, Thurs 9-5.
